

JOB POSTING:

Water and Wastewater Engineer (2 positions)

Location: Brantford and Thunder Bay

Closing Date: Open

The mandate of the Ontario First Nations Technical Services Corporation (OFNTSC) is to provide engineering and technical advisory services to all unaffiliated First Nations and Tribal Councils in Ontario. The OFNTSC requires the services of a Water and Wastewater Engineer to assist the OFNTSC team. One position will be located in the Brantford office and one position will be located in the Thunder Bay office.

DUTIES:

- Provide professional engineering advisory services in all aspects of water and wastewater systems including water supply, treatment and distribution, sewage collection, treatment and disposal, and other municipal services.
- Conduct assessment studies/investigations and prepare reports for water and wastewater systems.
- Prepare, review and manage reports.
- Prepare and assist in developing terms of reference for each phase of projects.
- Review work, including studies and designs, performed by consultants.
- Participate on project teams to ensure the successful completion of water and wastewater projects which meets the needs of the First Nation community.
- Assist First Nations with completing their wastewater effluent regulatory reporting requirements
- Assist Tribal Councils and First Nations in ensuring that designs and construction projects comply with all codes and guidelines as well as provide advisory services on any issues related to Water and Wastewater Systems.
- Assist with Conference and Workshop related activities.
- Act as a liaison between First Nations and government agencies.
- Assist OFNTSC clients with obtaining various sources of outside funding (ie: Indigenous Services Canada, Health Canada, Ministry of Infrastructure, Environment Canada, and others).

STATEMENT OF QUALIFICATIONS:

- Licensing by Professional Engineers Ontario (PEO) is required.
